Protect yourself this winter

The free Covid-19 booster vaccine and the free seasonal flu jab are the most effective way to protect people over 65 and those who are clinically vulnerable from severe illness and hospitalisation if they catch Covid-19 or flu this winter.

Who can get the vaccine?

You can get a free Covid-19 booster vaccine and a free flu jab if you are:

- aged 65 or over
- clinically vulnerable
- pregnant
- a frontline health or social care worker
- a carer
- living with someone with a weak immune system

How can I get the vaccine?

If you're eligible, you can get a free Covid-19 booster vaccine and a free seasonal flu jab by turning up to any of the clinics listed on the front of the flyer. No need to book.

More clinics are being added every week until the end of January. Check our website via the QR code and link below.
